| Date | Revision | Description | Author | Reviewer |
|------------|----------|--|---------------------------------|----------|
| 06/18/2009 | 1.0 | Initiated/Created document | Mike Daley | |
| 07/12/2009 | 1.1 | Updated the following sections 7 Budget, 8 Goals | Mike Daley | |
| 01/23/2010 | 1.2 | Copyright, Objectives section FinApp gutter space, new floaters, Financial Calendar | Roopa Malavally, Sudha Tayya | |

1 Objective

Purpose of this document is to capture design (visual) details to customize the Yodlee MoneyCenter products with the below items. While most of the general elements are applicable for all of Yodlee's products, some of these are specific to a product line. For example, charts are only applicable for Personal Finance. Please refer to product description documents for more information on features supported in each of the product lines.

1. Basic Page Structure
2. Application Layout Elements
3. Page Error and Success Message Handling
4. Navigation
 - a. Primary Navigation – Tabs
 - b. Navigation - Menus
5. FinApp Tray
6. FinApp Properties
 - a. Layout
 - b. Filter Properties
 - c. Dropdown Menus
 - d. Forms
 - e. Expanded Panes
 - f. Embedded FinApps
 - g. Tables
 - h. Text Links
 - i. Buttons
 - j. Gutter Space
7. Floaters
8. Financial Calendar
9. Spending Charts
10. Beta Promotional Floater

2 Instructions

- Provide colors in hexadecimal values. For example: #003399
- The field should be left blank in order to use default values
- For images, provide the name of the image (e.g, sample.gif) and send the images in a separate email.
- Recommended values are safe to use as they have been tested thoroughly in several environments.
- It is recommended to use font sizes in pixels.

3 Global Changes

3.1 Basic Page Structure

The following snapshot shows the basic page structure for the 10x release. The page is structured to support 318px and 646px FinApps and users will be able to drag and drop FinApps into different content slots.

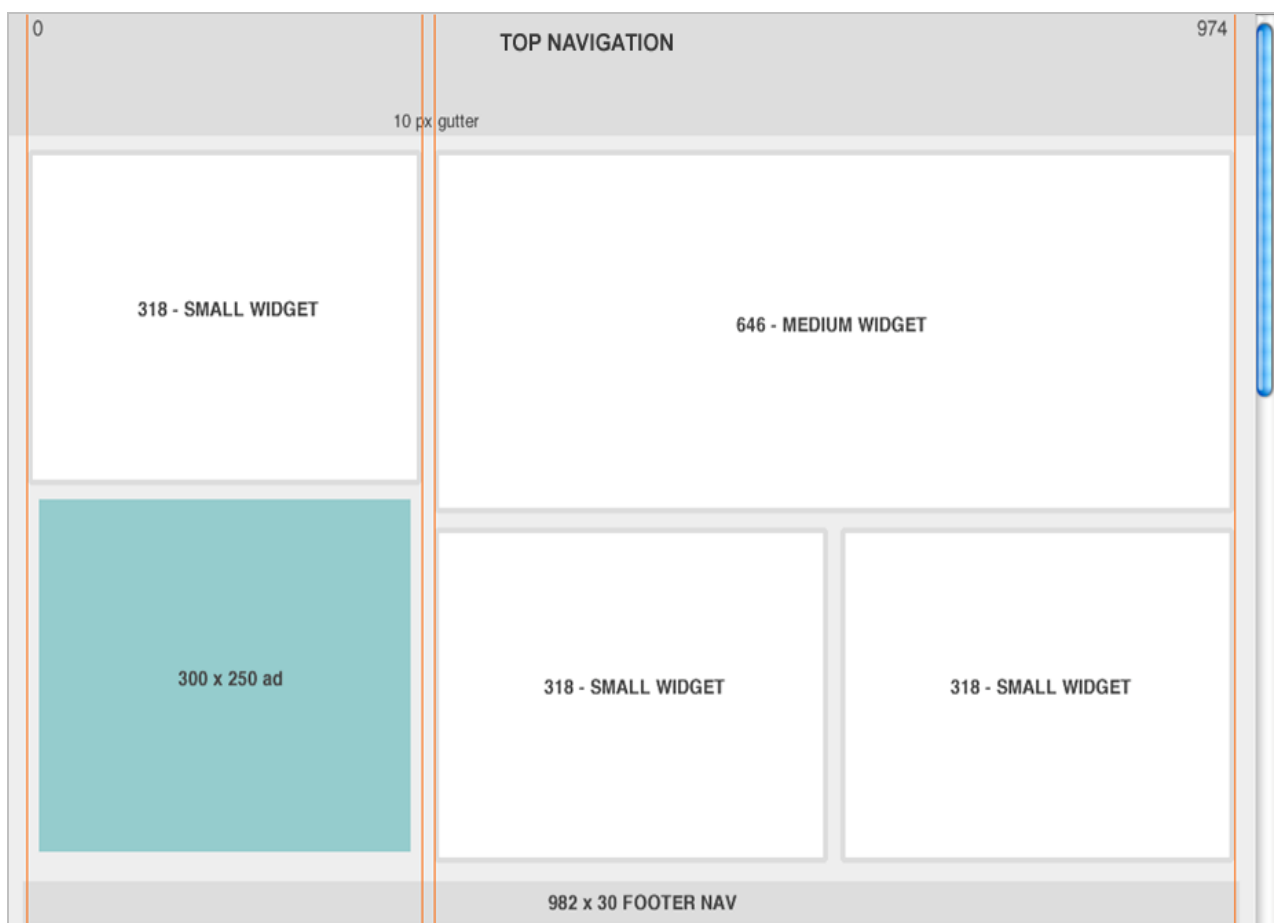

Figure 1: Yodlee MoneyCenter 10x basic page structure.

Select the number of columns for the application based on the width available using the table below.

| Element Name | Description | Instructions | Default | Customer Preference |
|--------------|-------------|--------------|---------|---------------------|
|--------------|-------------|--------------|---------|---------------------|

| Page columns | The number of columns available on a page | <div>Enter a value based on the width of Cobrands page:</div> <table><tr><th>Page Width (pixels)</th><th>Columns</th></tr><tr><td>622 < width <= 975</td><td>2</td></tr><tr><td>975 > width <= 1303</td><td>3</td></tr><tr><td>1303 < width</td><td>4</td></tr></table> | Page Width (pixels) | Columns | 622 < width <= 975 | 2 | 975 > width <= 1303 | 3 | 1303 < width | 4 | <div>Recommended:</div> See table | |
|---------------------|---|--|---------------------|---------|--------------------|---|---------------------|---|--------------|---|-----------------------------------|--|
| Page Width (pixels) | Columns | | | | | | | | | | | |
| 622 < width <= 975 | 2 | | | | | | | | | | | |
| 975 > width <= 1303 | 3 | | | | | | | | | | | |
| 1303 < width | 4 | | | | | | | | | | | |

3.2 Application Layout Elements

The section below captures the details for application width, header file, footer file, primary text color, primary font type, and primary font size.

| Element Name | Description | Instructions | Default | Customer Preference |
|------------------------|--|---|---|---------------------|
| Application Background | The background of the application. | Choose a very light shade of any color, however white is recommended due to the strong contrast it provides against dark-colored text. | #FFFFFF Recommended: #FFFFFF (white) | |
| Primary Text Color | This is the default text color for all pages of the PersonalFinance application. | To specify a color other than the default, enter a browser-safe hexadecimal color code or one of the 16 predefined colors (red, white, blue, etc.). Any darker shade of black color is highly recommended, because it gives a good contrast with a light page background color. | #444444 (dark grey) Recommended: Darker shade of any color, especially black | |
| Primary Font Type | This is the font type used throughout the application. | Enter three fonts by order of importance. They must be separated by commas with no spaces. The first font type entered is the default font type used by the application, with the second and third type used as backup options if the user's machine does not support the specified first or second fonts. | font-family: Arial, Helvetica, sans-serif; Recommended: font-family: Arial, Helvetica, sans-serif; | |
| Primary Font Size | This is the default font size applied to the application text. | The font size is fixed in pixels and it. | Font-size:11px; Recommended: 1) Default | |
| Header File | The custom header appears at the top of all the PersonalFinance pages | Create a header file per the instructions in the PersonalFinance Supplement and send it to Yodlee. | N/A | |
| Footer File | The custom footer appears at the bottom of all the PersonalFinance pages | Create a footer file per the instructions in the PersonalFinance Supplement and send it to Yodlee. | N/A | |

3.3 Page Error and Success Message Handling

The section captures page level error and success messaging

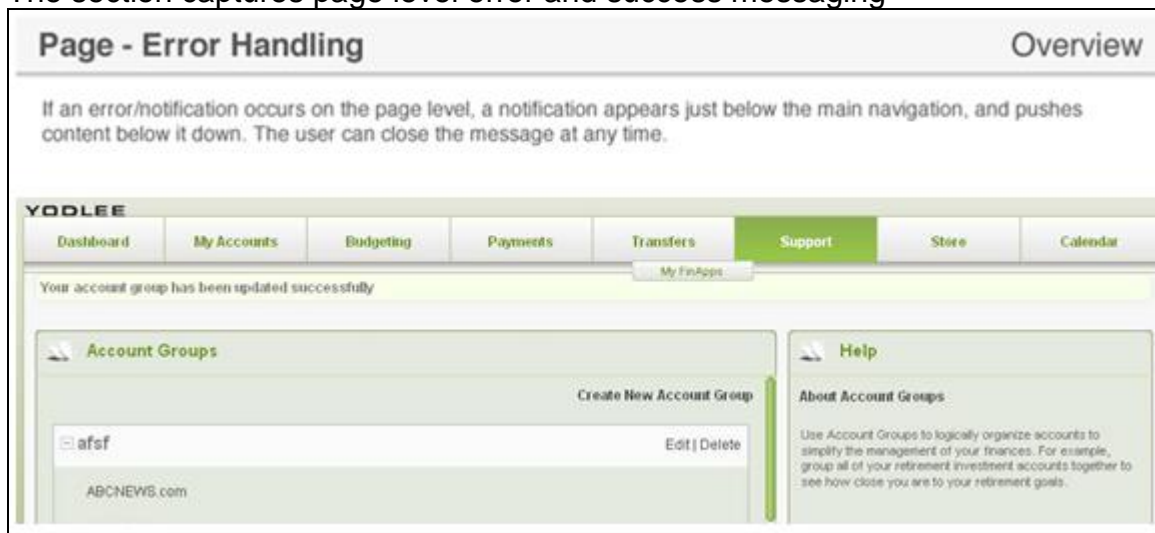

Figure 2: Page Error and Success Messages

| Message Type | Element Name | Style Values | Customer Preference |
|--------------|--------------|---|---------------------|
| Error | Header | Font Size Font Color Background Color | |
| | Content | Font Size Font Color Background Color | |
| Success | Header | Font Size Font Color Background Color | |
| | Content | Font Size Font Color Background Color | |

3.4 Navigation

3.4.1 PRIMARY NAVIGATION - TABS

The section below captures the design (visual) details for primary navigation - tabs.

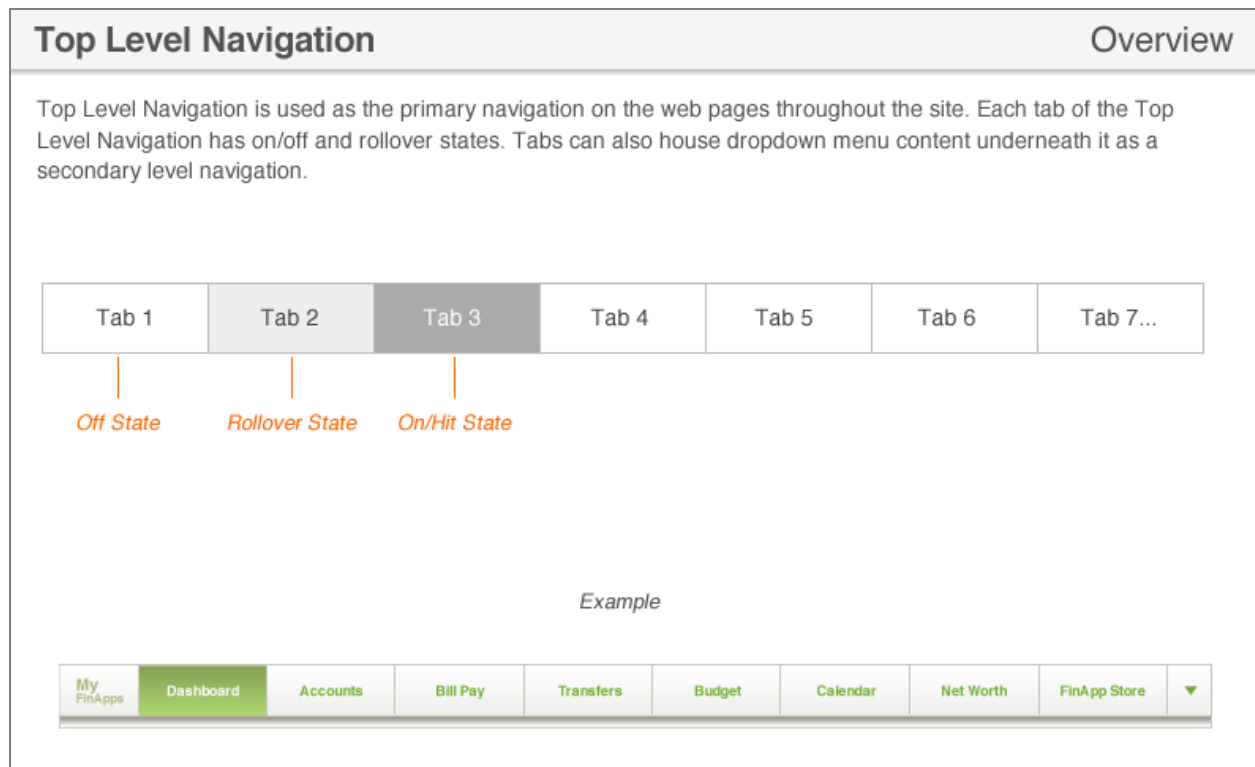

Figure 3: Top level navigation

| Element Name | Style Values | Customer Preference |
|--|---|---------------------|
| Active Main Tab | Font Color Background Color/Image | |
| Non Active Main Tab | Font Color Background Color/Image | |
| Main Tab – Mouseover | Font Color Background Color/Image Recommended: The state used for Active Main Tab (Label a) | |
| Rounded Corners for Tabs (For supported browsers) | *Rounded Corners (yes/no) | |

3.4.2 NAVIGATION – MENUS

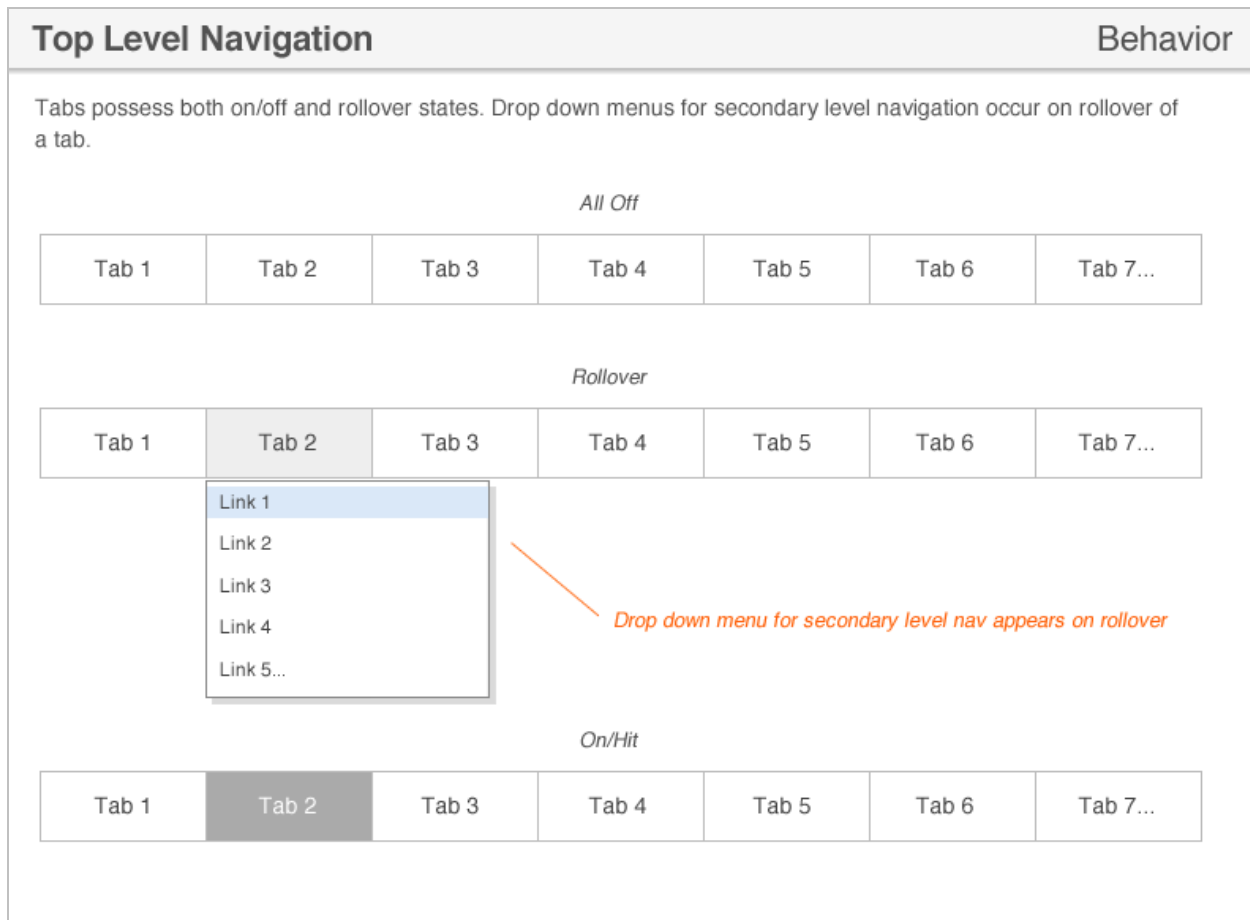

Figure 4: Top level dropdown menus

| Element Name | Style Values | Customer Preference |
|-------------------------------|--------------------------|---------------------|
| Fly out Menu Background | Background Color | |
| Fly out Menu Font | Font Color *Font Size | |
| Fly out Menu Border and | Border | |
| Background Color - Mouse over | Background Color | |
| Horizontal Separator | On and Off Font Color | |

3.5 FinApp Tray

The FinApp Tray is used to drag FinApps onto an existing page in the application.

Figure 5: FinApp Tray

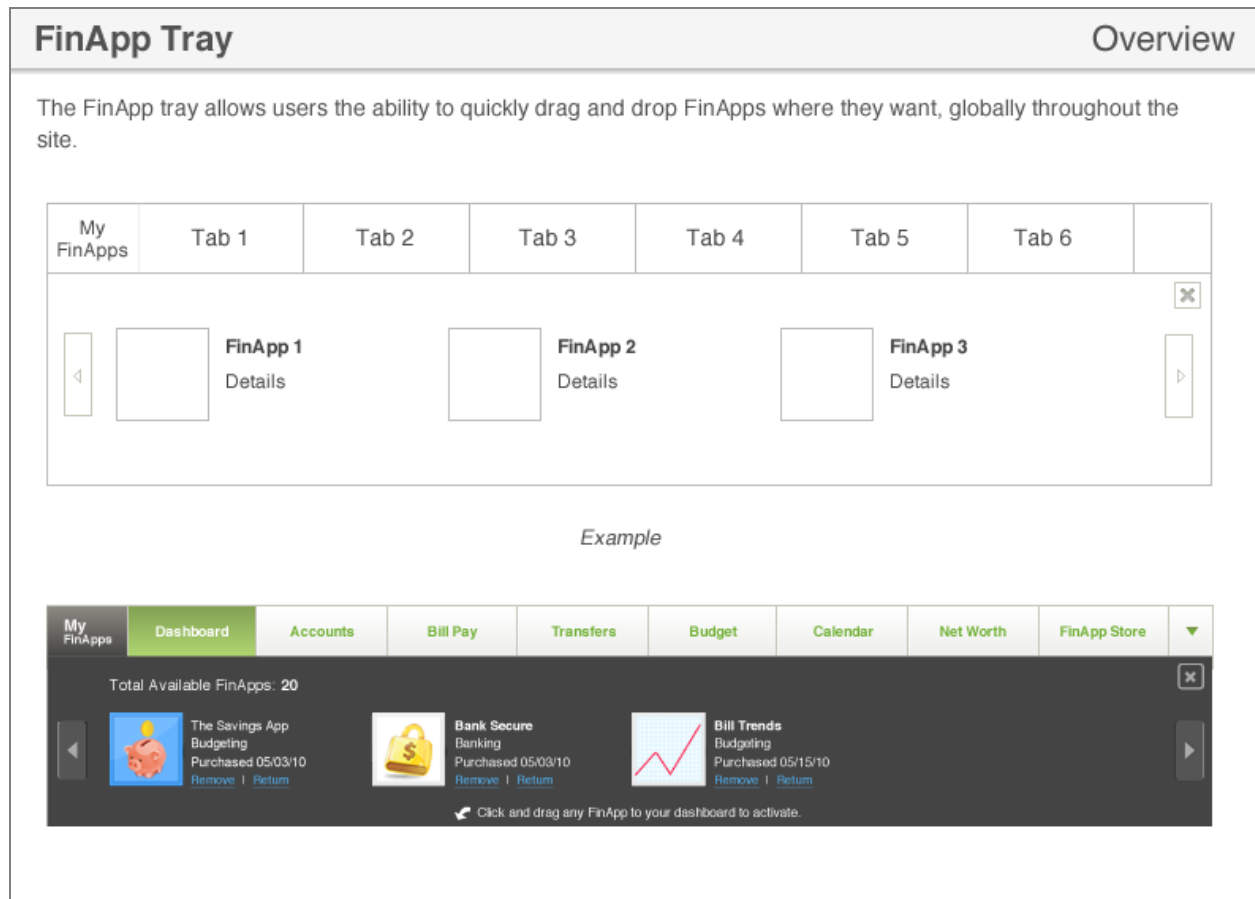

Figure 6: FinApp Tray

| Element Name | Description | Instructions | Default | Customer Preference |
|--------------------------------|---|---|--|---------------------|
| FinApp Tray Background | The background of the FinApp Tray. | Choose a background color that will contrast with the available FinApps and the font. | #000000 Recommended: #000000 (black) | |
| FinApp Tray Primary Text Color | This is the default text color for FinApp Tray | To specify a color other than the default, enter a browser-safe hexadecimal color code or one of the 16 predefined colors (red, white, blue, etc.). A color that will provide contrast with the background color is recommended, | #FFFFFF (white) Recommended: #FFFFFF (white) | |
| FinApp Tray Primary Font Type | This is the font type used in FinApp Tray. It will default to the primary font type if not defined. | Enter three fonts by order of importance. They must be separated by commas with no spaces. The first font type entered is the default font type used by the application, with the second and third type used as backup options if the user's machine does not support the specified first or second fonts. | font-family: Arial, Helvetica, sans-serif; Recommended: font-family: Arial, Helvetica, sans-serif; | |

| | | | | |
|-------------------------------------|--|--|--|--|
| FinApp Tray Primary Font Size | This is the font size used in FinApp Tray. It will default to the primary font size if not defined.. | The font size is fixed in pixels and it. | Font-size:11px; Recommended: 1) Default | |
|-------------------------------------|--|--|--|--|

4 Global FinApp Properties

This section defines the global FinApp properties that will be shared by all FinApps in the application.

4.1 FinApp Layout

FinApps are available in two sizes, 318px and 646px and conform to the following standards:

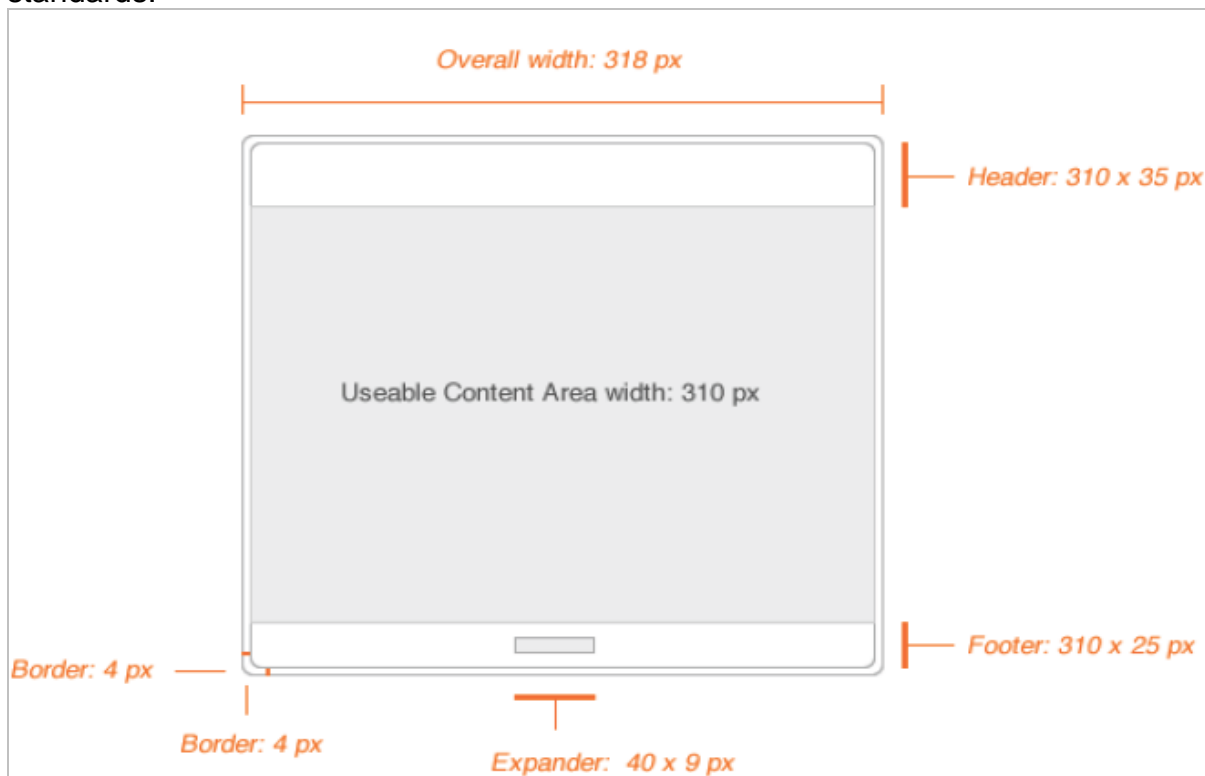

Figure 7: 318px FinApp

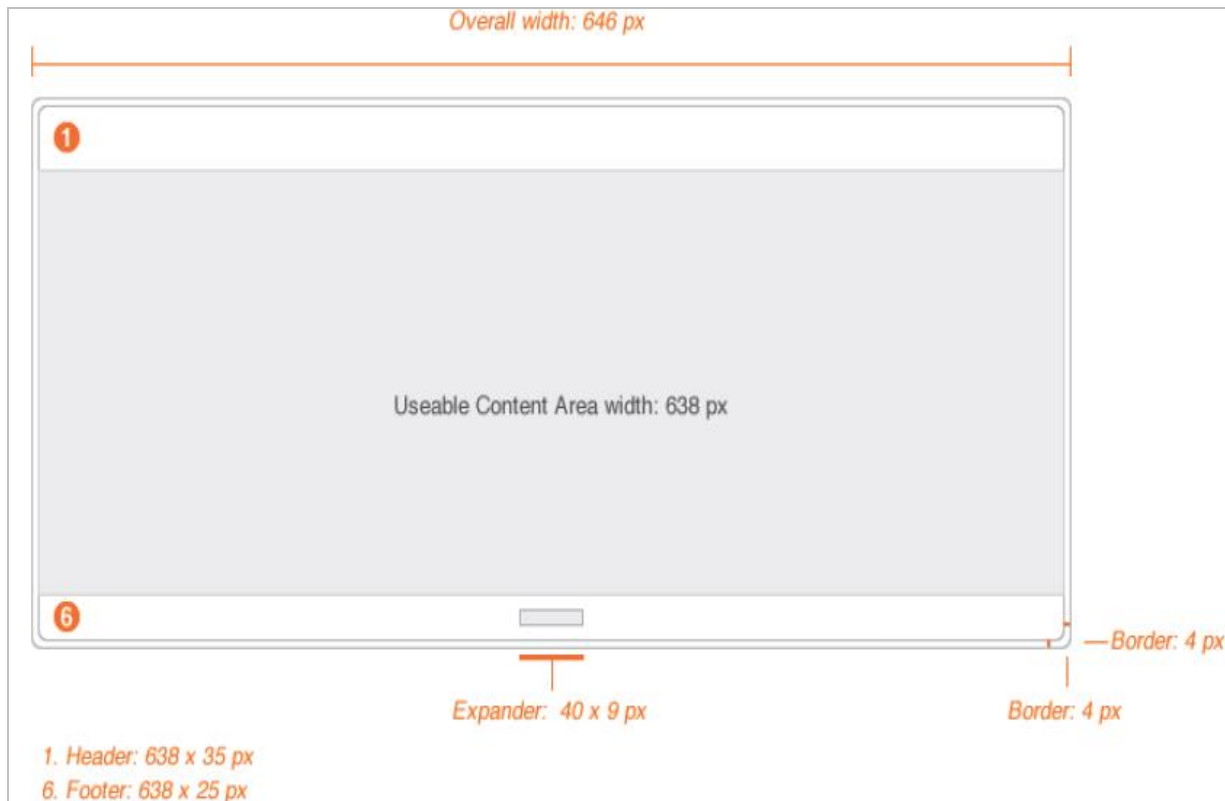

Figure 8: 646px FinApp

| Element | Description | Instructions | Default | Customer Preference |
|-----------------------------|--|---|---|---------------------|
| FinApp Header Image | Background image for all FinApp headers | Choose a background image for all FinApp headers, see Figure 9: 318px FinApp Background Image Specs and Figure 10: 646px FinApp Background Image Spec | | |
| FinApp Header Background | Background color of the FinApp header | Choose a very light shade of any color, however white is recommended due to the strong contrast it provides against dark-colored text. | #FFFFFF Recommended: #FFFFFF (white) | |
| FinApp Header Control Icons | Icons to control minimize, close, and redirect to page | Select a 22x22px icon or accept the default icons | see Figure 11: FinApp Header Control Icons | |
| FinApp Header Text Color | Text color for all FinApp header text | Choose text color for all FinApp headers | | |

| | | | | |
|---------------------------------|--|---|--|--|
| FinApp Header Font Type | This is the font type used throughout the application. | Enter three fonts by order of importance. They must be separated by commas with no spaces. The first font type entered is the default font type used by the application, with the second and third type used as backup options if the user's machine does not support the specified first or second fonts. | font-family: Arial, Helvetica, sans-serif; Recommended: Same as primary font type | |
| FinApp Header Font Size | This is the default font size applied to the application text. | The font size is fixed in pixels | Default: 11px Recommended: 1) Default | |
| FinApp Content Background Image | Background image for all FinApp content areas | Choose a background image for the content area of all FinApps, see Figure 9: 318px FinApp Background Image Specs and Figure 10: 646px FinApp Background Image Spec | | |
| FinApp Footer Background Image | Background image for all FinApp footers | Choose a background image for the footer of all FinApps, see Figure 9: 318px FinApp Background Image Specs and Figure 10: 646px FinApp Background Image Spec | | |
| FinApp Footer Background | Background color of the FinApp footer | Choose background color for all FinApp footers. Recommended to be the same as FinApp header background | | |
| FinApp Footer Text Color | Text color for the FinApp footer | Choose text color for all FinApp footers. Recommended to be the same as the text for FinApp header | | |
| FinApp Footer Font Type | This is the font type used throughout the application. | Enter three fonts by order of importance. They must be separated by commas with no spaces. The first font type entered is the default font type used by the application, with the second and third type used as backup options if the user's machine does not support the specified first or second fonts. | font-family: Arial, Helvetica, sans-serif; Recommended: Same as primary font type | |
| FinApp Footer Font Size | This is the default font size applied to the application text. | The font size is fixed in pixels | Default: 11px Recommended: 1) Default | |
| Primary FinApp Text Color | This is the default text color for all pages of the | To specify a color other than the default, enter a browser-safe hexadecimal color code or one of the 16 predefined colors | #444444 (dark grey) | |

| | | | | |
|--------------------------|--|---|--|--|
| | PersonalFinance application. | (red, white, blue, etc.). Any darker shade of black color is highly recommended, because it gives a good contrast with a light page background color. | Recommended: Same as primary font color | |
| Primary FinApp Font Type | This is the font type used throughout the application. | Enter three fonts by order of importance. They must be separated by commas with no spaces. The first font type entered is the default font type used by the application, with the second and third type used as backup options if the user's machine does not support the specified first or second fonts. | font-family: Arial, Helvetica, sans-serif; Recommended: Same as primary font type | |
| Primary FinApp Font Size | This is the default font size applied to the application text. | The font size is fixed in pixels | Default: 11px Recommended: 1) Default | |

Table 1: FinApp Layout Properties

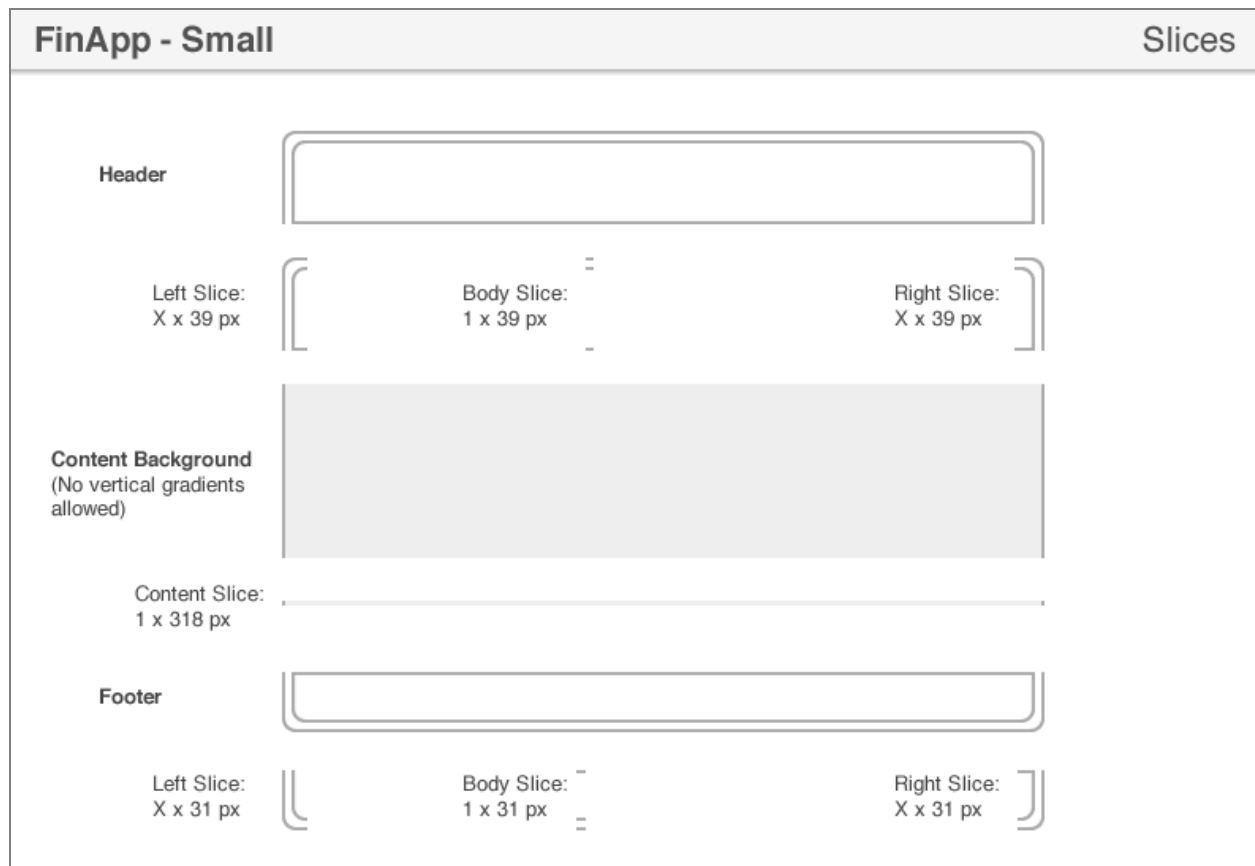

Figure 9: 318px FinApp Background Image Specs

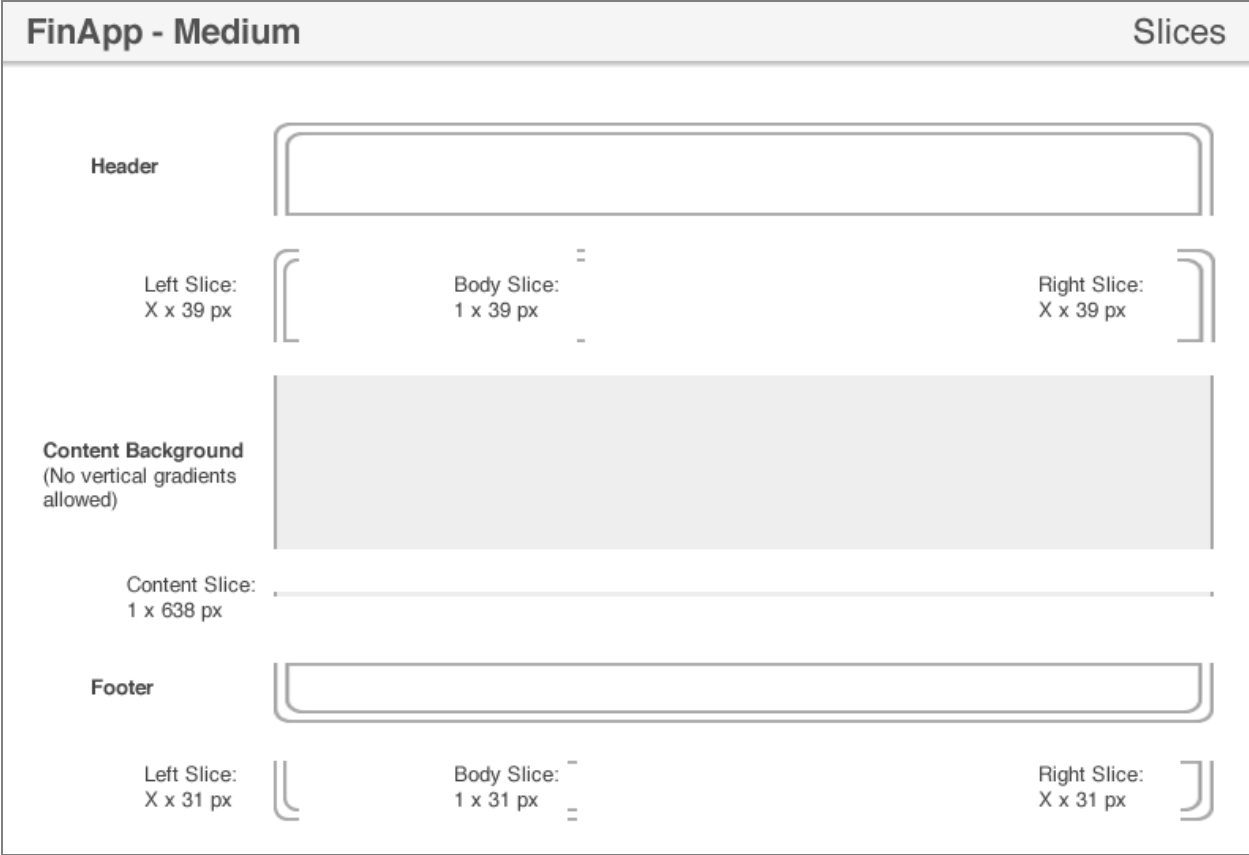

Figure 10: 646px FinApp Background Image Spec

Header Properties - Control Icons

Control Icons are used for actions such as link out, delete, help and expand/contract, that are related to/control the FinApp.

NOTE - The same applies for medium FinApps.

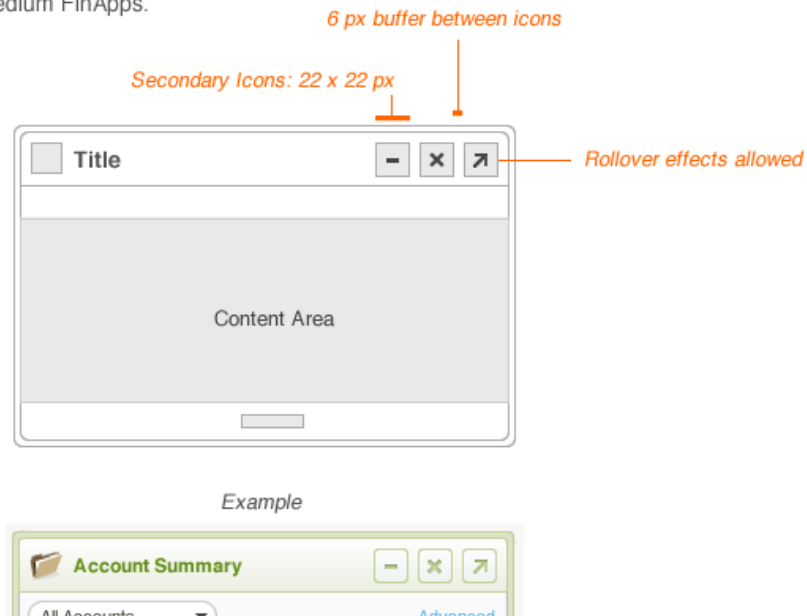

Figure 11: FinApp Header Control Icons

4.2 FinApp Filter Properties

FinApps can have default filters and advanced menu filters this section details the configurable properties for the FinApp filters.

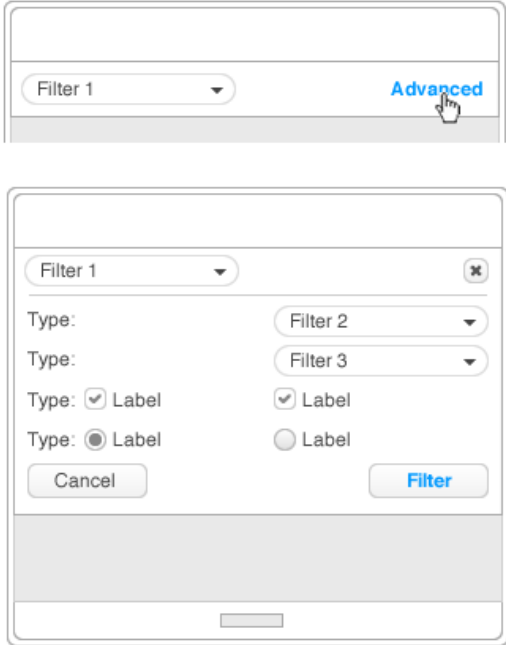

| Exposed Filter Action | Behavior |
|---|--|
| <p>As noted earlier, the Exposed Filter and Advanced Filter Area cannot exist at the same time. Essentially, if one of the primary actions of a widget for a user is to filter it, then the developer should use the "Exposed Filter" treatment as opposed to the Advanced Filter Area. The Exposed Filter combines filters that would exist in the Advanced Filter Area, thus eliminating the need for the Advanced Filter Area.</p>  <p>The diagram illustrates two states of a filter interface. The top state shows a simple 'Filter 1' dropdown with a blue 'Advanced' link next to it. A hand icon points to the 'Advanced' link. The bottom state shows the 'Advanced' filter overlay. This overlay contains a 'Filter 1' dropdown with a close 'X' button, followed by three 'Type:' labels, each with a dropdown menu (Filter 2, Filter 3, and a third one). Below these are three radio button options, each labeled 'Label'. At the bottom of the overlay are 'Cancel' and 'Filter' buttons.</p> | <p>User can filter immediately using Filter 1 OR clicks the "Advanced" link to expose more filters.</p> <p>Advanced Filters are exposed on click and overlays the content area. User can click "Cancel" or X to close the filters. Closes on "Filter" click as well.</p> |

Figure 12: FinApp filters

| Element | Description | Instructions | Default | Customer Preference |
|--------------------------|--|---|---|---------------------|
| FinApp Filter Background | Background color of the FinApp advanced filter | Choose a very light shade of any color, however white is recommended due to the strong contrast it provides against dark-colored text. | #FFFFFF Recommended: #FFFFFF (white) | |
| FinApp Filter Text Color | Text color for the FinApp footer | Choose text color for all FinApp footers. Recommended to be the same as the text for FinApp header | | |
| FinApp Filter Font Type | This is the font type used throughout the application. | Enter three fonts by order of importance. They must be separated by commas with no spaces. The first font type entered is the default font type used by the application, with the second and third type used as backup options if the user's machine does not support the specified first or second fonts. | font-family: Arial, Helvetica, sans-serif; Recommended: Same as primary font type | |

| | | | | |
|-------------------------|--|----------------------------------|--|--|
| FinApp Filter Font Size | This is the default font size applied to the application text. | The font size is fixed in pixels | Default: 11px Recommended: 1) Default | |
|-------------------------|--|----------------------------------|--|--|

4.3 FinApp Dropdown Menus

Dropdown Menu

Dropdown Menus are used to filter content or provide additional links to content under a dropdown, tab, or search field. Yodlee currently uses a few variations of menus depending on the type and number of links available within a dropdown menu.

Overview

Standard Dropdown - Use this dropdown for tabs and for menus with fewer than 10 links where space isn't an issue.

Category Dropdown - Use this dropdown for menus with multiple content rows and/or the need to breakdown content by category.

Short Dropdown - Use this dropdown for menus where space is a concern.

Figure 13: FinApp dropdown menus

| Element Name | Style Values | Customer Preference |
|--|--------------------------------------|---------------------|
| Rollover list highlighted background color | Font Color Background Color/Image | |
| Rollover list background color | Font Color Background Color | |

4.4 FinApp Forms

The section below captures the design (visual) details for error handling in FinApp forms. Forms will use the FinApp content properties

| Pane Selected | Background Color | |

4.7 FinApp Tables

Tables

Behavior

Line items within a table have color row selectors that highlight a row on rollover. Additionally, the ability to have alternating row colors exists.

Example: Row highlight

| Date | Description | Amount |
|---------|-----------------|----------|
| 3/03/10 | Touchstone | \$62.00 |
| 3/03/10 | Falletti Foods | \$38.19 |
| 3/02/10 | United Airlines | \$288.04 |
| 3/02/10 | Kabuki Theaters | \$12.00 |
| 2/27/10 | Rosetta Stone | \$107.83 |

Row highlights on rollover

Hex color: configurable

Example: Alternating row colors

| Date | Description | Amount |
|---------|-----------------|----------|
| 3/03/10 | Touchstone | \$62.00 |
| 3/03/10 | Falletti Foods | \$38.19 |
| 3/02/10 | United Airlines | \$288.04 |
| 3/02/10 | Kabuki Theaters | \$12.00 |
| 2/27/10 | Rosetta Stone | \$107.83 |

| Table Footer | Font Color | |

| | | |
|--|------------------------|--|
| | Background Color/Image | |
|--|------------------------|--|

4.8 FinApp Text Links

Text Links

Text links are often used as part of a sentence, a secondary action, or where buttons are too heavy or redundant. There are two types of text link styles in Yodlee; Standard Bold Underlined and Rollover. Recommended usage of each style is listed below.

Standard Bold Underlined

IQ Bank (On rollover) → **IQ Bank**

Details
 Helvetica, Bold, Hex: #52B1F0
 Action occurs on click. Most commonly used text link.

Rollover

IQ Bank (On rollover) → **IQ Bank**

Details
 Helvetica, Bold, Hex: #444444 to #52B1F0
 Color change occurs on rollover. Best usage is in tables or when the color becomes distracting.

Figure 19: FinApp Text Link Properties

| Element Name | Style Values | Customer Preference |
|---------------|--|---------------------|

4.10 Gutter Space

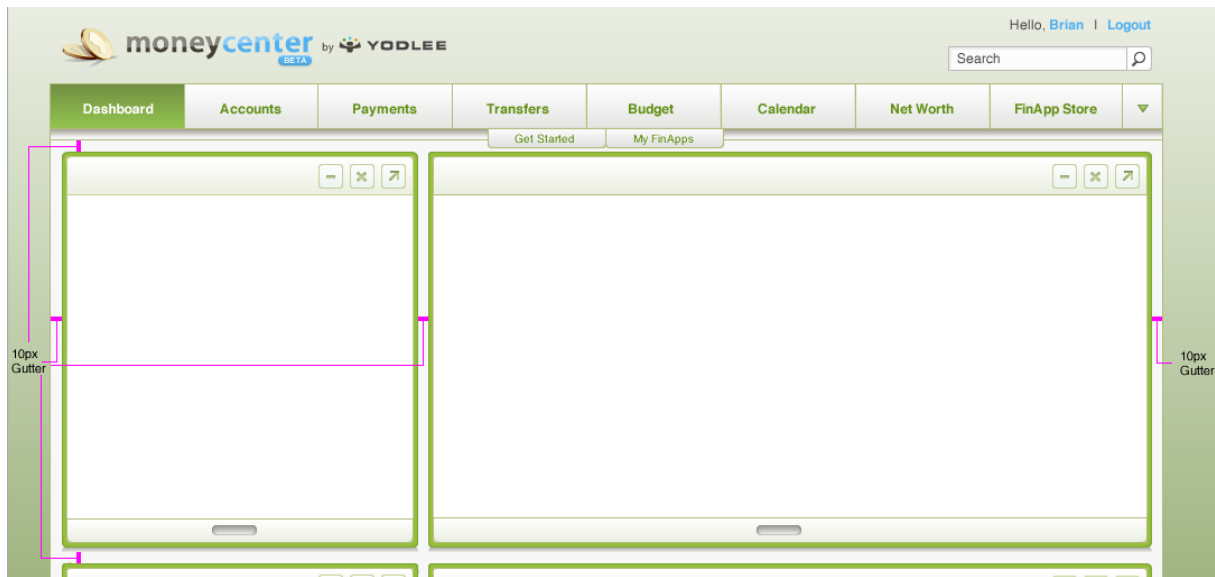

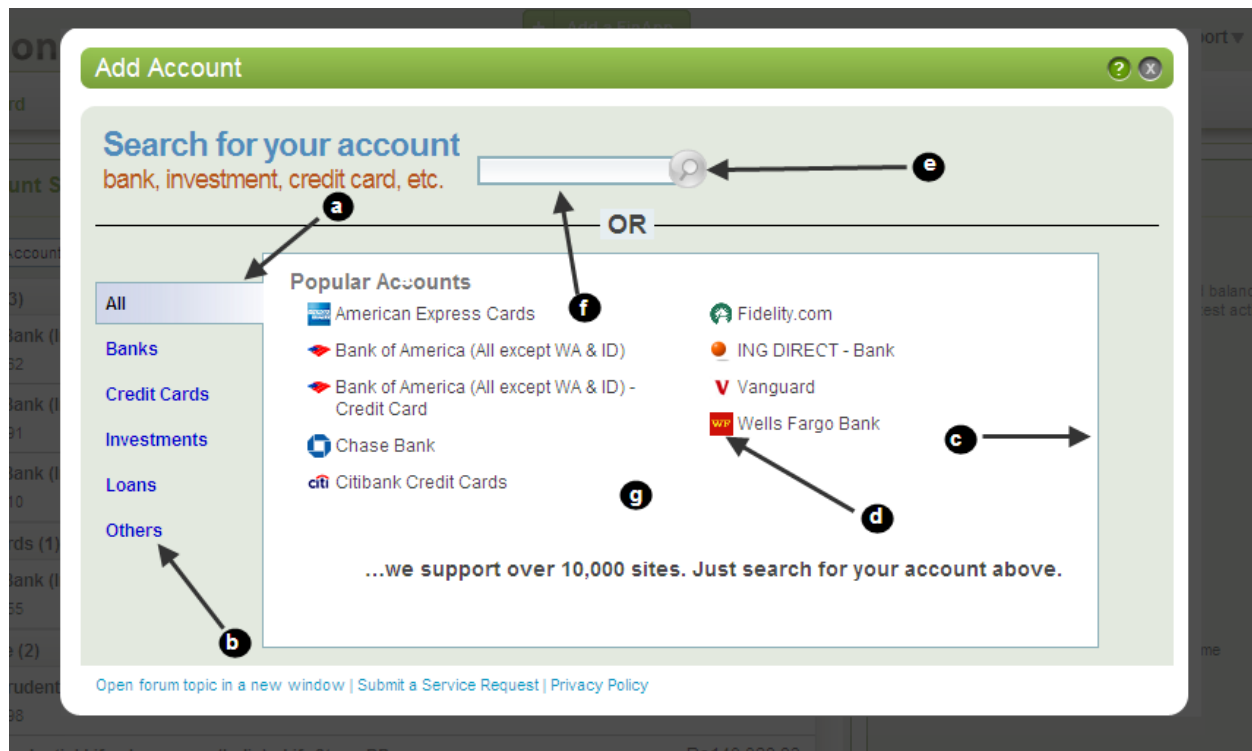

Figure 21 FinApp Gutter Properties

5 Floaters

Floater are used for "process funnels" - user-tasks which require the user to submit information without interruption for completing a task successfully.

For floaters, underlying page is grayed out (transparent page) and non-accessible (all links disabled).

The section below captures the design (visual) details for floaters.

| Label | Element Name | Style Values |
|----------|------------------------------|--------------------------------|
| a | Floater - Active Tab | Background Color Font Color |
| b | Floater – Non Active Tab | Background Color Font Color |
| c | Floater – Tabs Module Border | Border Color |
| d | Image – Placeholder Favicon | Image |
| e | Image – Search Button | Image |
| f | Image – Search Text Field | Border |
| g | Body | Background color |

The screenshot shows a web form titled "Add Payee" with a green header bar. The form contains the following fields and elements:

- Payee Name:** AT&T
- Nickname:** [text input]
- * Account Number:** [text input] with a "Show Typing" link.
- * Re-enter Account Number:** [text input]
- * Payee ZIP Code:** [text input] - [text input] (optional)
- Buttons:** "Back to Browse Payees" (link) and "Continue" (button).
- Footer:** "Open forum topic in a new window | Submit a Service Request | Privacy Policy"

Annotations (a-f) point to specific design elements:

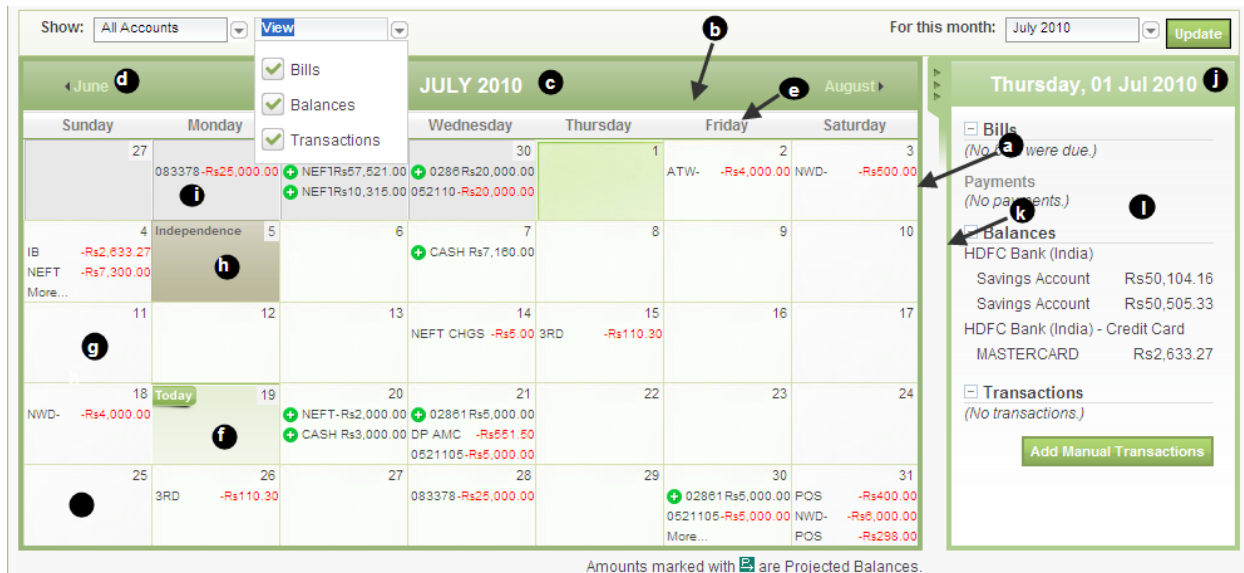

- a:** Points to the background color of the form area.
- b:** Points to the color of the top green header strip.
- c:** Points to the color of the bottom light green footer strip.
- d:** Points to the rounded corners of the form container.
- e:** Points to the "Back to Browse Payees" hyperlink.
- f:** Points to the "Continue" button.

| Label | Element Name | Style Values | Recommended Background |
|----------|----------------------|---------------------------|------------------------|
| a | Background color | Background Color | |
| b | Color (top strip) | Color | |
| c | Color (bottom strip) | Color | |
| d | Curve corners | Curve | |
| e | Hyperlink | Color | |
| f | Button | Background and text color | |

6 Financial Calendar

The section below captures the design (visual) details for the financial calendar.

Note: These details are required only if the Financial Calendar feature switch is turned ON.

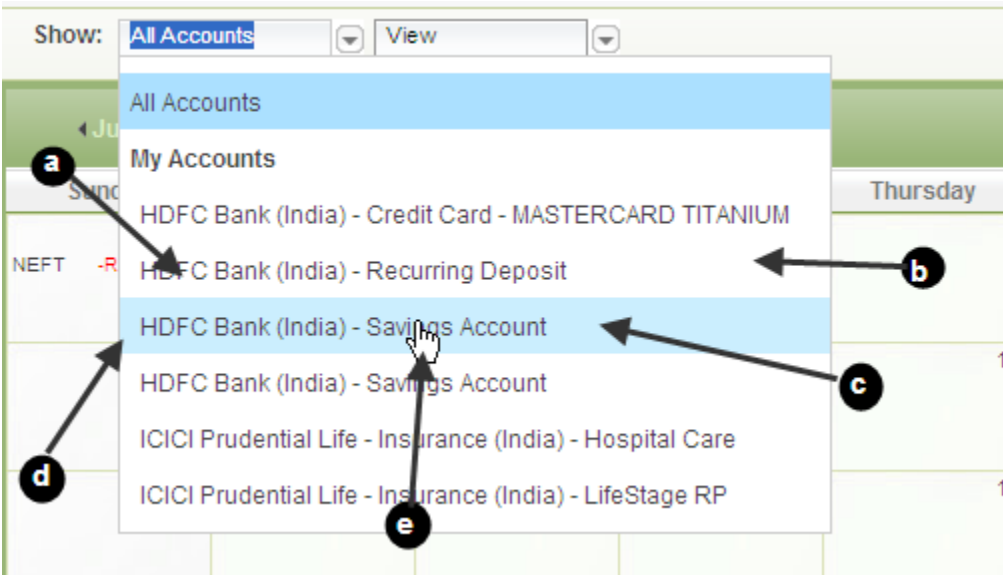

Amounts marked with are Projected Balances.

| Label | Element Name | Style Values | Recommended Background |
|----------|--|---------------------------------------|------------------------|
| a | Calendar - Outer Border | Border Color | |
| b | Calendar – Months Header | Background Color/Image | |
| c | Calendar – Months Header – Current Month | Font Color | |
| d | Calendar – Months Header – Next/Previous Month | Font Color | |
| e | Calendar – Days Header | Background Color/Image Font Color: | |
| f | Today | Background Color/Image | |
| g | Weekends (Sat, Sun) | Background Color/Image | Default |
| h | Public Holidays | Background Color/Image | Default |
| i | Past days of the previous month | Background Color | Default |
| j | Sidebar Header | Background Color/Image Font Color | |
| k | Sidebar Outer Border | Border Color | |
| l | Sidebar Body | Background Color/Image | |
| o | Future days in the current month | Background Color | |

| | | | |
|--|--|--|--|
| | | | |
|--|--|--|--|

Recommendation

“Day block” background should be in different shades of gray similar to the default application. Such neutral colors can fit into any color scheme.

| Label | Element Name | Style Values | Recommended Background |
|-------|---------------------------------|--------------------------------|------------------------|
| a | Filter Fly out Font | Font Color | |
| b | Filter Fly out Background | Background Color | |
| c | Filter Fly out Option Highlight | Background Color Font Color | |
| d | Filter Fly out Border | Border | |
| E | Image - Mouse over | Image | |
